Farmers and ranchers affected by the hail can benefit from the Special Support Plan activated by Ibercaja

Farmers and ranchers affected by the recent hail storms in the regions of Jiloca and Calatayud can benefit from a Special Support Plan activated by Ibercaja. The bank is thus in solidarity with the victims of a sector with which has been linked for 140 years.

The purpose of the Plan is to ensure the viability of agricultural holdings in the affected areas and that producers in the affected areas can continue to carry out their activity.

> The Ibercaja Plan includes lines of financing under special conditions, including 0% loans and opening fees up to 1.5%, as well as the advance of institutional aid or insurance indemnities to which they may be entitled to restore damage suffered under the same conditions

In this way, Ibercaja is in solidarity with the affected farmers and ranchers and puts in place different special measures to offer their support and collaboration and to mitigate the damages

caused by the recent storms. *The professionals of the Institution specialists in the sector will analyze each of the cases as well as their possible solutions.*
