Isagro Spain, new associate to AEFA

AEFA welcomes Isagro Spain, new associate member and with him there are a total of 52 companies.

Isagro Spain is a subsidiary of the Isagro Group with headquarters in Milan (Italy) dedicated to the development and distribution of products for the protection and nutrition of crops that improve the health of plants and their crops. *Grupo Isagro has a presence in more than 80 countries and has 4 production plants in Italy and India and its own research center in Novara.*

Isagro Spain has a prominent role in the field of agronutrition through microorganisms, biostimulants and chelates. Within the segment of microorganisms has been the first company to get the record for diseases of wood and vine tinder. In the segment of amino acids, it is a benchmark in the sector, positioning itself as a company that seeks differentiating solutions for the problems that most concern the farmer. And it has also been a pioneer in the development of new iron chelates, with innovative products within the problem of ferric chlorosis.
