BUSINESS AGRO, inspiring meeting point for internationalization formulas

Seven is not only a magic number that communicates luck, but land, culture, knowledge. Born with the need for the industry to communicate, and talk, so Agro Business is a VIP product of Siete Agromarketing**, specializing in meetings with the sector, with many years of experience in professional projects.**

Under the umbrella of *Business Agro* are collected all our events: Conferences, Master Class, Forums, Meetings, Conferences or Symposia. *In this 2016 Seven Agromarketing commitment to innovation, profitability, internationalization, export and import as starting points for their meetings.*

> **Agro Business = Meeting point / Knowledge / Dialogue / Inspiration / Decision Making**

We believe, from our experience, that the best tracks and negotiations are better developed around a topic of interest journalism as a working lunch, breakfast, etc. These products foster closer ties between public institutions and companies at a high level:

• Guests frontline, decision makers, with experience, involvement and knowledge of the subject to debate.
• Showcase to be known or strengthen their presence among companies and / or groups of interest, with direct impact on the public.
• Performing in a quiet environment, reference, where the smallest detail is cared.

Innovative encounters around a worktable where is shared breakfast, gathering, Master Class, break or lunch - work symposium to discuss a topic of interest in the agricultural sector. We devise arguments, perform planning, presentation and creativity of the event.

All interventions are promoted through RR.SS., and a video of the key moments that subsequently disclosed through the YouTube channel of e-Comercio Agrario (ECA), with the support of Twitter and Facebook is recorded.

Our meetings seeking equal terms with personalities from the food industry, entrepreneurs and representatives of public and private administrations ... Sit down and talk!
