

The UNIQ quality label, present with its agricultural corrugated box at the Infoagro Exhibition in Almeria

The [UNIQ](#) quality seal, a reference corrugated carton for the agricultural sector, has been present at the [Infoagro fair](#), which took place from 10th to 12th May at the [Palacio de Congresos y Exposiciones de Aguadulce \(Almería\)](#). UNIQ, thanks to the know-how and experience of the Association of Packing and Packaging Manufacturers of Corrugated Carton (AFCO), is the agricultural cardboard box that brings added value to horticultural products.

During the three days that Infoagro has lasted, its visitors, mainly farmers, have had the opportunity to get a closer look at the virtues that the ambassador seal of corrugated cardboard, UNIQ, contributes to its harvests. *A brand, prepared for three types of transport scenarios (export, long distance and overseas), hygienic, since it is a single use, meets all safety regulations tested through audits performed by the Technical Committee in origin and destination and endorses a sustainable packaging, one of the indisputable demands that the current market demands.*

Almería has more than 30,000 hectares of wintering surface, besides being a reference in the export of fruits and vegetables with figures that exceed 2 million tons per year, data that turn the city into the ideal scenario for Infoagro to consolidate itself Meeting point between the different

horticultural agents.
