Huercasa brings to Fruit Logística its fresh beet cream

Huercasa **will take advantage of its presence in this year's edition of** Fruit Logistics**, held in Berlin from 8th to 10th February, to launch its fresh fresh beet cream internationally, a product that will present as a novelty in this important showcase of the sector horticulture at european level, and whose consumption is oriented to spring and summer.**

> Made with the best beetroot of the brand Huercasa and extra virgin olive oil, this fresh cream is a hundred percent natural and vegetable product, which comes in an attractive container half-liter doy-pack, ready to open and consume

This new proposal of Huercasa is part of its **Ya Listos** range, which already has two salads of vegetables and vegetables, presented in individual trays, with cover and dressing, for easy and quick consumption.

Huercasa, *the European leader in the sector of 5ª Vegetable range*, also presents to the international market two more references, squash and sweet potato sliced, with a crunchy texture and ready to be used by the consumer in all types of recipes. These are vacuum-packed products, which maintain all the flavor and texture of the freshly baked product, *thanks to the quality and selection of the raw material, the pasteurization treatment and its cold storage during the three months of useful life.*
