Massey Ferguson is waiting for you at FIMA 2016

Massey Ferguson presents in FIMA 2016, held from 16 to February 20 in Zaragoza, all its renewed product range, making our brand ideal for any farmer or rancher solution, whatever their application in the field. From the MF 3600 specialist tractor to the MF8700 series with 400 hp, Massey Ferguson tractor is a perfect for the needs of the farmer, plus a full range of harvesting machinery (combine harvesters and balers) and telehandlers.

It is a global brand that provides local solutions, always focusing on the needs of our end users, to ensure comfort, confidence and of course, help to benefit from their exploitation.

Massey Ferguson investments have been directed to the development of technology and

innovation that make life easier in the field, which directly affects the economic margins that our customers get in their daily work. Engines with the latest technology, previously unthinkable low consumption, efficient transmissions and telemetry / homing put the firm of AGCO Group at the head of the manufacturers of agricultural machinery.

All this, together with an effective and rapid supply of spare parts, as well as a network of highly qualified and trained dealers who ensures high quality customer service to all over the national territory.

In FIMA 2016, Massey Ferguson introduces the following products:

• New Global Series - a first and global launch, will see the versatility of the new MF4700 and MF5700 series tractors in the 80-130 HP segment with Massey Ferguson he intends to rewrite the rules of agriculture.
