Meet the 30 exhibitors of Demoagro Specialty

There is less than a month left to enjoy Demoagro Specialty. Thirty exhibitors will meet at the El Carrascal game. This farm in Turís (Valencia) has 23 hectares, divided into 20 plots distributed in rows. Of the 20, the bone will occupy most (11 of the 20 plots); citrus fruits, four, like the vineyard; Finally, a plot will be dedicated to the nugget.

Machinery that goes beyond functionality

In full swing of clean energy and sustainability, the machines presented in this first edition of Specialty go a step further. “We prioritize functionality, as it cannot be otherwise,” says Ignacio Ruiz, general secretary of Ansemat, “but we cannot remain alone in that. The participants in the demonstration have very demanding quality standards, including a strong investment in R&D, and this concerns the improvement of the machine in many ways: efficiency, sustainability and durability. We want clean machines, but also safe and durable ».

Agrievolution and Demoagro Specialty, together on October 2

On October 2, the participants of the Agrievolution international summit (which also focuses on

special crops in this edition) will travel from Madrid to Turís to witness how these machines work. This international summit is held for the first time in Spain thanks to the commitment and work of Ansemat.
