More than 700 machines and agricultural implements will compose the sample of Demoagro

The third edition of the Demonstration of Machinery, DEMOAGRO**, which will take place on May 9th, 10th and 11th in San Clemente (Cuenca), is already heating engines within two weeks of its celebration. More than 700 tractors, machines and implements will deploy to show, in a dynamic way, new technologies applied for the preparation and work on soil, planting and planting, collection, care and protection of crops, fertilizer and water supply, transport and handling.**

To the more than 100 brands that can be seen in the demonstration plots, we add the sponsoring companies and collaborating entities: BKT, STIHL, SAPEC AGRO, REPSOL, EUROCHEM AGRO, VREDESTEIN, FERTINAGRO, AGRARIA SAN ANTÓN, BRIDGESTONE, AGROMILLORA, TRADECORP , TOP CON and MAPFRE, which, gathered in the same space, will make available to the visitor all the information about the latest advances in their products related to the sector.

As in previous years, the Ministry of Agriculture and Fisheries, Food and Environment (MAPAMA), agrarian organizations, FERIA DE ZARAGOZA and AGRITECHNICA (DLG) collaborate to make this event a reference of the sector in our country. They are joined by AEPLA (Business

Association for the Protection of Plants) and ANOVE (National Association of Plant Breeders), associations that, day-to-day, work closely with the National Association of Agricultural Machinery, Forestry and Green Spaces (ANSEMAT), organizer of the event, and that in DEMOAGRO 2017, along with some of the participating brands *will show the visitor, among other activities, the implantation of baffles in harvesters*. FRIENDS OF THE COUNTRYSIDE, European association of which the owner of the estate that hosts the Demonstration is a member, will also be present, collaborating in this great project

> All its participants and sponsors, will show their products and novelties in the APP that the organization has developed for this edition

With the application, already available in PLAY STORE and APP STORE, visitors will be able to plan their visit to DEMOAGRO, depending on the category and type of machinery they wish to see working, or locating the participant brand in flat. It is an essential tool to make the visit to DEMOAGRO 2017 a more dynamic and efficient experience.
