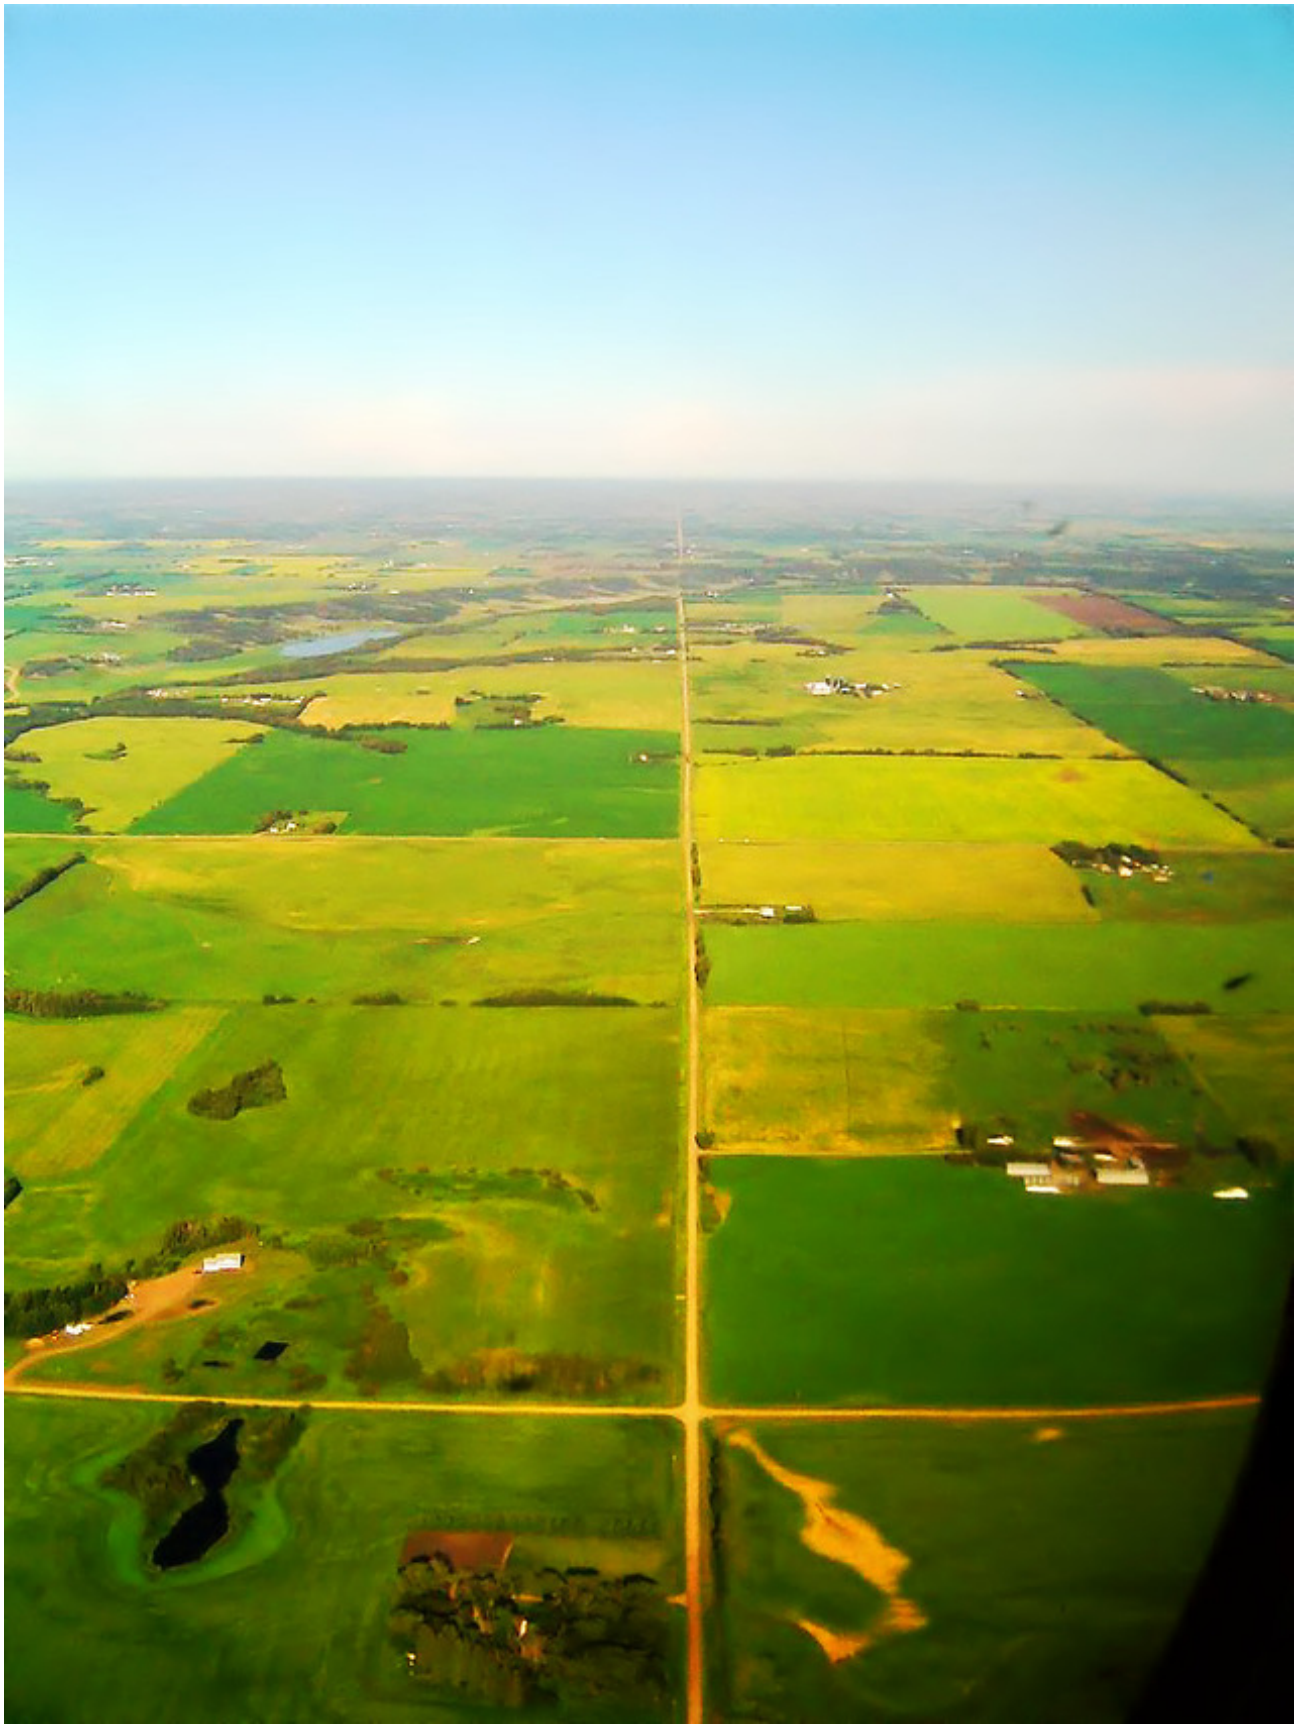
The Ministry of Agriculture announces a scholarship of training in the field of agricultural insurance



The Ministry of Agriculture, Food and Environment has published today in the Official Gazette convening a practical training grant and technical-professional training for graduates in the field of agricultural insurance.

This grant, which will have a provisional amount of 1,100 euros per month, beginning on April 1, 2016 and ending on 31 December of the year for your dealership and can be extended up to two years.

Applicants must have completed studies subsequent to May 2012, and will have to submit the application within twenty days after publication in the Official Gazette. The process of evaluation and selection of applications will consist of two qualifying phases. A first on the documentation submitted and the second consisting of a personal interview.

The evaluation of the documentation will take into account the English transcript, postgraduate training, practical, theoretical or theoretical and practical knowledge in analysis of the technical bases and insurance actuarial calculations and the knowledge and experience statistic analysis.
